to be manufactured according to the following manufacturing standards:

IEC (1) 335-1: Household and similar electrical appliances - Safety - Part 1.

IEC 34-1: Rotating electrical machines - Part 1.

IEC 529: Degrees of protection provided by enclosures (IP Code).

(1) IEC = CEI

The main safety requirements of European standards:

73/23/CEE Low voltage directive

are covered by standard IEC 335-1 above.

ADDITIONAL INFORMATION:

These products' design allow them to be used as a component in an assembly covered by the above directives, subject to being integrated and/or assembled by the assembly manufacturer in compliance with these directives and applying the specified conditions of use.

EMC:

The products are single- or three-phase asynchronous motors (induction machines). Therefore EMC does not apply to them as they are deemed non-emissive and immune (IEC 34-1 para. X-2-1). However, if connected to an electronic system, compliance with the essential requirements is the integrator's responsibility.

Marking: CE

On the nameplate.
